

Appendix I

Lists of Military Bases and Approved Garbage Facilities

Contents

Introduction [page I-1-1](#)

Establishment and Maintenance of the Military Cooperator Program [page I-1-1](#)

Clearance of Carriers Arriving from Foreign Points [page I-1-2](#)

Introduction

This appendix contains a detailed list of military bases, stations, fields, etc., where clearance of carriers arriving from foreign points may be obtained. Most, but **not** all, locations have approved garbage facilities.

Establishment and Maintenance of the Military Cooperator Program

The Military Cooperator Program (MCP) was established for the military to provide clearance at military installations outside the normal agriculture work unit limits or where it would be beneficial to agriculture for other reasons.

Base Commanders wishing to establish MCPs should submit a request in writing to the local CBP Port Director (PD). The PD should ensure the Base Commander is provided the procedures necessary to clear arrivals and assist in the preparation of a Base Order which outlines the procedures, responsible parties, and training requirements. The PD should provide cooperators with the CBP office telephone number and an after-hours telephone number so contact may be made at any hour. The PD should establish an accurate and timely reporting system which will reflect the work accomplished on a monthly basis to the CBP office. Contact AIPP for further details or suggestions. Inform AIPP immediately of any changes in approving bases or removing them from approval.

Approval for Garbage and Refuse Disposal

The facilities approved to handle and dispose of refuse from international flights are listed in [Table I-1-1](#), under the column "Name of Approved Garbage Facility."

At airbases or airfields **not** identified as approved for garbage and refuse disposal, permission to land will **not** be refused. However, garbage and other meal remnants or scraps will **not** be allowed to be removed and **must** remain aboard the incoming aircraft, and then taken to one of the airbases listed as approved or taken out of the country.

As other bases comply and upon notification from Riverdale, the list of other military air bases or fields with acceptable facilities will be expanded. Changes in status should be submitted as quickly as possible so that all ports can be alerted. To ascertain the type of coverage and PPQ port responsibility, see [Appendix K](#).

Clearance of Carriers Arriving from Foreign Points

[Table I-1-1](#) lists locations for clearance of carriers arriving from foreign points. Notify the CBP office listed under the column “CBP Contact” and inform CBP of the flight’s arrival and for further information on arrangements.

Important

In [Table I-1-1](#) under the column “Cleared By” the notation “Military” means that clearance is normally given by military cooperators.

TABLE I-1-1: Military Locations for Clearance of Carriers Arriving from Foreign Points

State	City	Base Name, Base Contact, Branch of Service	Served By	Cleared By	Name of Approved Garbage Facility	Notification Time	CBP Contact
